PRESS RELEASE

Visual Evidence Moves Offices to Valley View; Now Offers State-of-the-Art Videoconferencing to its Litigation Clients

December 28, 2012 (Valley View, Ohio) . . . Visual Evidence Corporation, the region's most recognized trial presentation and courtroom evidence firm serving the legal industry for over 27 years, announced today the relocation of its offices to 8555 Sweet Valley Drive, Suite A, in Valley View. VeDISCOVERY LLC is remaining downtown at its current W. 9th Street location.

"Our staff of 9 as well as our trial evidence production studios has moved to facilitate the continued expansion of services we offer our litigation clients," says Manfred Troibner, Principal and Founder of the firm. "We outgrew the space we were sharing, and will now be able to deliver more services to legal teams preparing for trial." Earlier this year, the trial services and electronic data discovery company split into two legal entities, Visual Evidence and VeDISCOVERY LLC, to better focus on their respective markets.

At its new Valley View location, Visual Evidence will be able to "offer clients a new state-of-the-art videoconferencing room that can accommodate 20 attendees, as well as free parking," explains Troibner. In addition, "our new location offers easy access to clients throughout NE Ohio, as we serve pre-eminent law firms in Akron, Canton and Youngstown as well as in Cleveland."

The firm's new phone number is (216) 867-1380; its toll-free number is (866) 656-5707. Until February 1, 2013, the firm's website will continue to be www.vevidence.com, and e-mails for staff will stay the same. On February 1, the firm's website will change to www.ve-evidence.com and e-mails will change as well; Troibner's will then be mtroibner@ve-evidence.com.

For over 27 years, Visual Evidence has been a full-service, end-to-end demonstrative evidence company, proud to be partners in their clients' litigation efforts. They are the region's recognized leader in delivering innovative demonstrative evidence solutions for clients in litigation matters such as medical malpractice, white collar crime, toxic tort, antitrust, bankruptcy, class actions, commercial construction, intellectual property, securities and domestic relations disputes.
